Welcome Message

It gives us great pleasure to jointly welcome you all to the 14th Green China Forum.

We are both gratified and honoured to receive such an enthusiastic participation from senior business, academic and government leaders from national, provincial and municipal levels from both mainland China and Hong Kong. It illustrates the high level of concern and significance of today's theme on "Environmental Economy Policy and Sustainable Development of Pearl River Delta".

The future of Pearl River Delta (PRD), in many perspectives, is the future of China and perhaps the future of the world. China has been and still is the largest manufacturer, producing 70% photocopiers, 50% cameras, 30% televisions and 30% furniture of the world's total output. The list stretches on and on. All these come with huge costs that we all know of and now bear with. China's growth cannot sustain if China's path in economic, environmental and social development cannot sustain. The world is eagerly expecting a new green China to rise.

For all these reasons, we co-stage this platform to facilitate dialogue and build consensus in a positive setting to achieve what public and private sectors cannot achieve separately. Our purpose is to harness the powerful insights and forces of visionary leadership, smart business, green public policies and reforms to steer China's fuelling economy towards a more sustainable path.

We would also like to take this opportunity to extend our warmest gratitude to our strong panel of speakers and moderators for their valuable time and insights, and corporate partners for their great support and generosity in many aspects to make our Forum today possible and successful.

Let's look beyond the challenges and see prospects for collaborative solutions to make Green China a reality in a future not too far away.

欢迎献辞

欢迎各位来临参与绿色中国第十四届论坛。我们十分高兴及荣幸是次论坛反应热烈；深获国家省市各部门政府要员及各商界、学界领袖支持。这充分说明各界对是日主题“环境经济政策与珠三角地区可持续发展”的高度重视，尤为关注。

珠三角的未来，在多方面来说，就是中国或是全世界的未来。中国仍然是全球最大的生产者，生产全球百分之七十的影印机、百分之五十的照相机、百分之三十的电视机及百分之三十的家俱，以及无数的产品。

为著这一切，我们深知当中代价，亦不得不承受。中国亦不能持续增长，假若中国的经济、环境及社会不能同步持续发展。现在，全球正热切地期待一个全新绿色中国的冒起。

因此，我们携手筹划是次高层次互动论坛，积极促进跨界别对话、建立共识；透过领袖的卓见、精明营商之道、绿色政策及改革，引领中国从炽热的经济发展迈进可持续发展的康庄大道。

我们藉此机会衷心感谢阵容强大的特邀贵宾、讲者及主持，为今天的会议贡献宝贵时间及分享；以及各大企业伙伴的大力支持，让今天的论坛得以成功举行。

让我们一同迎接挑战，展望未来协作方案，同心协力体现绿色中国。

Presenting Corporate Partner Message

Swire is honoured to be the Presenting Corporate Partner for this Green China Forum, which focuses on Environmental Economy Policy and Sustainable Development of Pearl River Delta.

Swire wishes to excel as a corporate citizen. Further, as a business, our prime purpose is to build long-term value for our shareholders. This future value for our shareholders depends on operating our businesses in a sustainable manner, in sustainable industries and sustainable communities. We have therefore given high priority over many years to environmental and other sustainable development issues. We appreciate, however, that as the United Nations reports:

“We appear to be living in an era in which the severity of environmental problems is increasing faster than our policy responses. To avoid the threat of catastrophic consequences in the future, we need new policy approaches to change the direction and magnitude of drivers of environmental change and shift environmental policy making to the core of decision-making.”
- United Nations Environment Program Global Environment Outlook 4 page 458

Social problems are also increasing as scarcity of resources affects vulnerable groups. We have therefore adopted a Sustainable Development Policy to formalize our attention to the issues and published our first Sustainable Development report (www.swirepacific.com) to detail the action we are taking.

Competition limits the amount any company can do independently. It is therefore essential that we come together in forums like this to identify the barriers to, and enablers for moving to a more sustainable world and to seek Government action in providing the regulatory framework to facilitate real change. Greater understanding of these issues and the regulatory action required will, I believe, be the most important outcome of this forum.

首席企业伙伴献辞

太古非常荣幸能作为首席企业伙伴，参加绿色中国第十四届论坛 - 环境经济政策与珠三角地区可持续发展。

太古致力成为一个良好的企业公民。作为一间企业，为股东建立长远的利益是我们的首要目的。要保障股东将来的利益，太古必须在可持续的行业与可持续发展的社区里，以可持续的方式营运业务。因此，太古多年来一直将环境问题及可持续发展事项作为优先考虑的议题。正如联合国环境署《全球环境展望4》报告中第458页所言：

“我们现正处于一个环境问题严峻的时代，有关政策的回应远不及环境恶化的速度。为避免将来出现灾难性的影响，我们需要新政策以调整改善环境之驱动力的方向及强度，使环境政策成为决策的核心。”

与此同时，社会问题亦因为弱势社群受到有限资源的影响而日益增加。有见及此，太古实施可持续发展政策以落实重点的关注内容，并出版了第一份可持续发展报告(www.swirepacific.com)，详述我们正在采取的有关行动。

竞争会限制企业各自在环境保护上可作出的努力。故此，我们有必要多举办类似的绿色论坛，认清建立可持续社会过程中的障碍及推动力，推动政府成立调控的机构来促进改变。我相信，对此等问题的深入了解，配合事在必行的管理计划，将会是这次论坛的重要成就。

Speakers

Mr Stephen Fong

Chairman, Business Environment Council
General Manager, Swire Properties Limited

Mr Stephen Fong is Chairman of Business Environment Council (BEC). He plays a pivotal role in leading the Board, setting the Council's strategic direction and expanding BEC's role into China, including alliances with the Ministry of Environmental Protection and several other likeminded non-government organizations.

At Swire Properties, Mr Fong is responsible for all new developments and is also their Environmental Champion. He has been with the company for eight years and has spearheaded advancements in procurement, quality, technology and change management. His results are clearly illustrated in the Cambridge House, Three Pacific Place office developments, The Orchards residential apartment and Pacific Place Mall renovation. The recently completed One Island East office tower employed the most advanced green design and construction procurement method in Hong Kong and won the 2008 American Institute of Architect's TAP award for "Design / Delivery Process Innovation Using BIM". His current focus is to share and apply these advancements in Mainland China to 16 million square feet of mega mixed used complexes under development in Beijing, Shanghai and Guangzhou.

Prior to Swire, he was the Company Director for the Mandarin Oriental Hotel Group responsible for international luxury hotel developments. He led the award winning historic restorations of the Hyde Park Hotel in London, The Oriental Bangkok, Kahala Hawaii and The Majapahit Surabaya. In addition, there were commercially successful mixed-use developments in Miami, Kuala Lumpur, Singapore, Mexico, Jakarta, Bali and Bangkok.

The Hon Mr Edward Yau, JP

Secretary for the Environment
Hong Kong SAR Government

Mr Edward Yau was appointed as Secretary for the Environment of HKSAR Government on July 1, 2007. His portfolio covers environmental protection, nature conservation, energy and sustainable development, responsible for formulating policies, promoting public awareness as well as encouraging community participation regarding.

He has been working for the HKSAR government for many years, overseeing plans and programs implemented by the Environmental Protection Department, the Electrical and Mechanical Services Department, the Agriculture, Fisheries and Conservation Department and the Drainage Services Department, with a view to achieving and maintaining a healthy and pleasant environment for the Hong Kong people.

Before taking up the current position, he was the Director of Information Services. He joined the civil service as an Administrative Officer in 1981. During his long career with the government, he serves various positions including Deputy Director-General of Trade (later renamed Deputy Director-General of Trade and Industry), Director General of the Hong Kong Economic and Trade Office in Washington, and Deputy Secretary for Education and Manpower. Graduated from the University of Hong Kong in 1981, he received further education at Oxford University in 1983 and at Harvard University in Spring 2000.

Leading Responsible Business 领导责任企业

The Business Environment Council (BEC) is the longest running independent, private-sector non-profit organization in Hong Kong promoting corporate social and environmental responsibility. Set up by business for business in 1989, BEC offers sustainable business solutions covering baseline assessment, advisory, research, training and award programs for companies across all sectors and at any stage of their corporate sustainability journey. Headquartered in our own building in Hong Kong, we have additional offices in Beijing and Shenzhen. Our key focus areas include:

- Carbon footprinting audit
- CSR check and strategies
- Energy management and EMS audit
- Green building labelling
- Indoor air quality solutions
- Waste management and recycling solutions
- Environmental and CSR awards
- Staff development and training
