

## Introduction to ISO 9001 and ISO 14001 Upgrade Version (84109)

The ISO 9001 Quality Management System and ISO 14001 Environmental Management System were upgraded with a series of amendments in 2015. A 3-year transition period is allowed for the certified organisations to upgrade their systems. Perhaps the most challenging task an organisation preparing for the transition is to identify the organisation gaps which need to be addressed to meet the new requirements. This 3-hour-long course, co-organised with **TÜV Rheinland Hong Kong Limited**, highlights the major amendments which equips your organisations to transit to the new versions of standards.
